

# Organizational Communication & Psychology Double Major

Pursuing majors in both **Organizational Communication** and in **Psychology** prepares students for organizational roles in public, private, for profit, and non-profit sectors where mastering communication skills, behavior change strategies, and data-driven decision-making gives them an advantage (e.g., Human Resources, Consulting, Org'l Development, Training & Development, Counseling, Institutional Research, Industrial and Org'l Psychology, Employee Engagement, Change Management). Students can complete BCC requirements and both majors in 109 hrs. This proposed plan uses the Fall 2024 catalogue and may change if either major undergoes curricular modifications.
